Masters Program in Geospatial Technologies - Schedule 2025-2027

			2025 Sep 1-6	Sep 7-30	Oct 1-31	Nov 1-30	Dec 1-31	2026 Jan 1-31	Feb 1-28	Mar 1-31	Apr 1-30	May 1-31	Jun 1-30	Jul 1-31	Aug 1-31	Sep 1-30	Oct 1-31	Nov 1-30	Dec 1-31	2027 Jan 1-31	Feb 1-28	Mar 1-15
UJI																						
			Sep 1-5													Master thesis Sep 8						Mar 7, end of the program
Arrival																					
Administration																					
		Sep 8 - start of regular courses							Feb 27													
	Module 1	Programming																				
		Data bases and data management																				
		Artificial intelligence and machine learning																				
	Module 2	Data science																				
		Development of applications for geographic data exploration and visualization																				
		Spatial data services, sources, standards, and infrastructures																				
	Module 3	Geographic information systems - from desktop to web																				
		Geographic information systems - applications and trends																				
		Earth observation and remote sensing																				
UNL																						
			Sep 1-5													Master thesis Sep 8						Mar 7, end of the program
Arrival																					
Administration																					
		Sep 8 - start of regular courses							Feb 27													
	Module 1	Geographic Information Science																				
	Module 2	Spatial Analysis and Visualization																				
		or: Remote Sensing																				
	Module 3	Spatial Statistics																				
		Geospatial Datamining																				
		Group Project Seminar on Programming and Analysis																				
										Moving to Münster, preparation of courses					Moving to Lisbon/Castellón, if applicable						
WWU																						
										Apr 6-12					Master thesis Sep 8						Mar 7, end of the program
		Administration																				
		Enrolment																				
		Apr 13, start of courses										July 24, end of regular courses									
	Module 4	Core Topics in Geographic Information Science																				
		GI Forum																				
		GI Forum Discussion Group																				
	Module 5	2 out of 5 courses:																				
		Location-based Services, Spatial Cognition,																				
		Study Project, Programming in GI																				
		Reference Systems (eventually more courses)																				
	Module 6												block course (Jul 27-Aug 14)								
		Applied topics																				
	Module 7	Research methods																				
		Project management/GeoMundus																				
														Aug 15, deadline for homeworks/reports etc.
